MANZI DELPHIN

Software Engineering Student

@ manzidelphin2@gmail.com | (+250) 785 995 840 | Kigali, Rwanda | delronpos.com | manzidelphin | manzi-delphin

EDUCATION

Bachelor of Software Engineering

Adventist University of Central Africa (AUCA)

Expected completion: January 2027 | Graduation: November 2027

- Final-semester Software Engineering student with a strong foundation in full-stack architecture, backend systems, and scalable web solutions.

EXPERIENCE

Software Engineering Intern

Spiro (Africa's Green Mobility Solutions)

Kigali, Rwanda

- **SPIRONET Swap Station Tracker:** Engineered interactive GIS mapping interfaces using Leaflet.js and CartoDB basemaps to track Kigali swap hubs, featuring custom SVG status markers and real-time inventory popups.
- **EcoFleet Analytics Portal:** Developed executive telemetry dashboards utilizing Chart.js to monitor active vehicle metrics, energy throughput, and dynamic state-of-charge/health (SoC/SoH) gauges.

PROJECTS

GymMind SaaS Platform

B2B SaaS, Full-Stack Architecture

Corporate Wellness Gym Management System

- Designed and developed a multi-tenant B2B SaaS platform empowering fitness facilities to manage member profiles, subscription tiers, and attendance check-ins seamlessly.
- Integrated institutional modules allowing corporate entities to assign personnel and dependents, track attendance, and automate billing workflows by sending attendance-backed invoices directly to corporate HR departments.

DELRON AI POS (Founder & Developer)

AI-Powered SaaS, FinTech, DevOps

Live Product – delronpos.com

- Founded and engineered an AI-powered cloud point-of-sale and business management platform tailored for Rwandan supermarkets, bakeries, and restaurants.
- Integrated local mobile money payment processing, automated smart alerts with Kinyarwanda support, and AI-driven business insights.
